

New ReloVideo™ Tour Now Available

MyReloWorks® – a great solution for corporations, employees and relocation management companies because it's a simpler process... for everyone.

It is as easy to use as a travel search engine. Find the most convenient option at the best price, and then book it.

With MyReloWorks® the transferee receives bids directly and automatically from pre-qualified and reputable corporate movers registered in the system. Self-Directed Allowances and/or corporate benefit policies can be added to their account, from which they can book and manage relocation services.

When the move is complete, each bill is reviewed by an audit team to ensure pricing accuracy for the services rendered. Your employee can book with confidence, knowing that they will only pay for what is shipped.
